The module is currently in soft launch with the recent new registrants from the December Exam cohort.

Some revisions are anticipated before it will be launched to the entire membership.

Anticipated launch date is expected within the first quarter of the new registration year (April 1st – June 30th)

# Module Learning Plan: Case Study

Case Studies (case reports) are part of the information gathering process and can be used to gather significant best practices information in the treatment of various conditions, populations, and so on within the massage therapy profession.

Case Studies give all members a chance to be a part of the research process in furthering the massage therapy profession. We are excited to be able to have the opportunity to begin this information gathering via the MLP option of continuing education.
